ABSTRACT – Study on system pension insurance for romanian farmers

In Romania, reform pensions began in 2000 through promulgation of Law 19/2000 which entered into force in April 2001 and covers the public of the national pension system (PI). It also established the formula for calculating the pension of the public. Along with the public mandatory pension reform and also includes two private: private mandatory component (PII) and the private optional (PIII).

Keywords : insurance, pension scheme, management, pension fund
